Good evening to all,
Nice to meet you for the first time.
I received your contacts only at 2nd May 2023.
I urgently need to change the terms of the registered company.

Last year I was looking for a solution to self-finance the development of my company and I was proposed the idea of creating this company and then selling the bonds to all investor clients who were interested in investing, operation then not continued because the creation of the company had not been defined in the terms in which it was done, so my lawyers blocked everything.

Reading the registration certificate of the company incorporated on 31 May 2022, a capital of 1,500,000 GBP is paid in, which was absolutely never agreed upon and not available to me. The total of the self-financing operation with the issue of bonds was €200,000 and clearly the payment of the bonds issued would have been subsequent to the sale.

To date, not only has the company not performed any operations, but it has never even opened a current account.

So now first:

1. all the values indicated as declared share capital must be urgently fixed to a total of 10,000 GBP, which to date I don't know how to declare paid having no current account.
2. Once I have updated the company statement to the correct extent as it should have been when registering the company a year ago,
I will consider opening the account for the same capital payment and then sell or close it.
3. Clearly the Confirmation Statement 2023 must be done following the update sent above.

I am sure that we will quickly find the solution to fix everything, I look forward to your kind reply. Thank you
Renzo Bossi
